AutoCAD Essentials Training course outline

AutoCAD is the industry leading 2D drawing software.

AutoCAD Essentials training provides a thorough grounding in AutoCAD for beginners. On completion, you will be able to use AutoCAD to create high quality, accurate 2D drawings, plans and designs.

Course summary

Teaches the key commands and techniques for 2D drawing in AutoCAD.

The drawing techniques taught are generic, relevant to all industries. All are applicable to both AutoCAD LT and full AutoCAD.

Duration

Three days.

Who should attend?

Newcomers to AutoCAD and novice AutoCAD users.

In-class or live online

You can attend course in-person at any of our centres, or participate online from your place of work or home.

To read about our approach to online training, see armada.co.uk/live-online-training.

General information

Armada is an Autodesk authorised Training Centre (ATC), and our *AutoCAD Essentials* course is accredited by Autodesk.

AutoCAD courses are hosted by Autodesk Certified Instructors (ACIs) with vast experience using AutoCAD in industry.

Whilst attending training at our centres, delegates have the use of a computer running licensed AutoCAD software to practice the techniques taught. Refreshments and lunch are provided.

Course fees can be paid by card or bank transfer. We accept purchase orders from UK-registered companies and public sector organisations.

If you're self-funding your training, you can pay in staged payments, interest-free, over 12 months.

Course materials and certificate Delegates receive:

- A comprehensive AutoCAD training guide.
- An e-certificate from Autodesk confirming attendance on an accredited *AutoCAD Essentials* training course.

Method of delivery

Training is designed for the busy professional, being short and intensive and combining lecture and demonstration. Practical exercises carried out under guidance help delegates to learn the techniques taught.

Delegates have ample opportunity to discuss their specific requirements.

After course support

Following AutoCAD training, you're entitled to 30 days' email support from your trainer.

AutoCAD professional certification

Armada is an authorised Autodesk Certification Centre (ACC) offering Autodesk professional certification exams which lead to 'Autodesk-certified professional in AutoCAD' status.

Further information, prices & dates See: armada.co.uk/course/autocad.

Course syllabus

See over.

Course syllabus

Session	Topics	Session	Topics
The AutoCAD interface	Features of the ribbon The Application menu The Quick Access toolbar The command line Keyboard shortcuts	Drawing organisation	Using layers Changing object properties Matching object properties Using the properties palette Using linetypes
Creating basic drawings	Creating basic objects Working with lines Working with arcs Working with polylines	Working with layouts	Using page setups Using layouts Scaling drawing views
	Using object snaps Using object snaps Using object snap tracking Using polar tracking	Annotating the drawing	Creating multiline text Creating single line text Using text styles Editing text
Saving your work	Auto-backups Other file formats, DXF, etc. Disaster recovery	Dimensioning	Creating dimensions Using dimension styles Editing dimensions
Accurate object creation	Working with units Dynamic input Using Inquiry commands Using measurement tools to find	Hatching objects	Using multileaders Hatching objects Editing hatch objects
Object viewing	Zooming techniques Panning techniques	Working with reusable content	Creating and inserting blocks and symbols Editing blocks and symbols
Manipulating objects	Selecting objects in the drawing Noun/verb selection Using Quick Select Moving objects Copying objects Rotating objects Mirroring objects Arraying objects Scaling objects		Using tool palettes Working with groups
		Layouts and paper space	Understanding model space and paper space Creating layouts Creating and using viewports Setting viewport scales
		Plotting your drawings	Plotting drawings PDF output Multiple sheet drawings
Altering objects	Trimming and extending objects to defined boundaries Creating parallel and offset geometry Joining objects Filleting corners between two objects Chamfering corners between two objects Stretching objects		Using Plotstyles
		Drawing templates	Creating drawing templates Using drawing templates
		One AutoCAD	AutoCAD toolsets AutoCAD web app AutoCAD mobile app
